### PRISTINE, FOR BABY

It's never too early to indoctrinate kids about the evils of pesticides. New in Ontario from **Mother Hen** is a line of **organic and natural frozen baby food** — from strained apples and mango purée to chicken-in-the-pot. Meals feature more texture, to encourage chewing. We'd like to tell you what our tiny taste tester

thought, but she can't talk yet. Fruits available in six-packs (each serving 59 mL) at a suggested price of \$5.49; meals in packages of four (each 119-mL) at \$7.99. In many grocery stores and Shopper's Drug Mart. Made in Canada.
